VACANCY NOTICE

"We aim to recruit for attitude & train for skill in line with our Sertec People Philosophy and accelerator behaviours."

Job Title:	Business Systems Developer
Job Family:	I.T.
Sertec Site:	Sertec Corporation Ltd
Hours:	Full time, day shift
Reporting To:	Group I.T. & Systems Co-ordinator

Main Purpose of The Position:

Vital role in driving our technological initiatives in Microsoft Dynamics and Power Platforms Support. Assist with our implementation and enhancing our use of Dynamics 365 and Power Platform solutions, enabling us to become more sustainable and supportive of our teams. Collaborate closely with our internal business systems team and external providers to efficiently support, develop, and promote the adoption of these platforms while ensuring data-driven decision-making processes meet the needs of our end users.

Core Duties:

- Experience developing software solutions with Microsoft Dynamics 365 Business Central and the Power Platform
- Working knowledge of Cloud Technologies in Microsoft Azure
- Experience developing solutions using .Net C#, JavaScript and JavaScript
- Taking on the full project lifecycle; Gathering Requirements, Design, Development, Testing, Deployment and Go-Live
- Liaising with stakeholders, clients and team-members
- Constant development of D365 Business Central knowledge
- **Support Dynamics 365 Environments:** Ensure seamless operation of our Dynamics 365 environments, allowing our teams to focus on their core missions.
- **Collaborative Engagement:** Foster a collaborative environment by engaging with project teams and individual users, helping them harness the full potential of our tools.
- **Empower Data-Driven Decisions:** Facilitate data-driven decisions, supporting our mission to make well-informed choices that positively impact our people, their work, and our mission.

Minimum Requirement for Role Attainment:

We are seeking a Microsoft Dynamics and Power Platforms Support Specialist with strong proven analytical skills Ideally an experienced background in the Finance element of business systems.

Your working knowledge should encompass Cloud Technologies in Microsoft Azure, developing solutions using .Net C#, JavaScript and JavaScript and responsible for the full project lifecycle; Gathering Requirements, Design, Development, Testing, Deployment and Go-Live

The successful candidate should possess excellent problem-solving skills with a continuous improvement mindset. Effective communication and interpersonal skills are essential for this role.

We are looking for someone who can work both independently and as part of a team.

How To Apply:

Please apply for this vacancy via email attaching a CV, stating the reason you are applying and why you feel you would be suitable for this position. Please note only electronic applications will be considered and a copy of the full Job Description available upon request. Please note, if invited for an interview, please, out of courtesy, make your current line manager aware.

This can be sent to: tracey.smith@sertec.co.uk

Closing Date:	06/10/2023

"Sertec strive to create a welcoming and collaborative environment where all our employees can bring their authentic selves. We show respect and care towards one another and work together to create a safe and collaborative environment where all thoughts and opinions are welcome."
