

SERTEC APPRENTICESHIP VACANCY

Toolmaker and Tool & Die Maintenance Apprenticeship

Site: Coleshill & Tyseley

Hours of Work: 36.5 hours- 39 hours .

Expected Apprenticeship Duration: 4 Years

Possible Start Date: September 2024

What does a Toolmaker and Tool & Die Maintenance Apprenticeship involve?

Toolmakers and Tool & Die Maintenance Technicians are responsible for manufacturing and maintaining the engineering tooling used to produce components, products and assemblies.

Typical duties include:

- Make or improve different types of tools to enable the production process to be as efficient as possible.
- Use a variety of machinist hand tools and precision measuring instruments to compute dimensions and determine machining and materials required
- Diagnose, dismantle and correct problems with machinery by making necessary repairs to return equipment to proper working order

What does a Sertec apprenticeship involve?

As an Engineering apprentice you will undertake a structured 4 year development programme, where you will have the opportunity to develop your knowledge and skills whilst working directly with industry professionals. You will gain hands-on experience, alongside college-based learning which will provide you with the best start to your career in Engineering.

Why choose a Sertec Apprenticeship?

Sertec Apprentices will be provided with numerous opportunities to develop, throughout the programme and beyond. During the programme you will be supported by dedicated mentors as you undertake a variety of placements across the business, allowing you to learn directly from the experts. You will also gain industry recognised qualifications alongside hands-on experience within the automotive industry.

Sertec strive to create a welcoming and collaborative environment where all our employees can bring their authentic selves. We show respect and care towards one another and work together to create a safe and collaborative environment where all thoughts and opinions are welcome.

What are we looking for?

Sertec are looking for the best. Whilst academic success is important, so too is your drive and determination to work within the automotive engineering industry.

Desired Skills and Behaviours:

- 5 GCSEs or equivalent at C grade or above (Grade 5-9), (including Maths, English and Science)
- Genuine interest in engineering and technology-based subjects
- Excellent problem-solving skills
- The enthusiasm to learn new things
- A willingness to work as part of a team
- Ability to take and follow instruction
- A keen eye for detail.

How to Apply

If you, a family member or a friend would like to apply for the 2024 Engineering Apprenticeship Programme, please apply on the website at
