19.02 Subcontractor Records and Facilities If requested by the Buyer, the Supplier will use its best efforts to permit the Buyer to obtain from the subcontractors of, and vendors, to the Supplier the information and permission to conduct the reviews specified in Section 19, regardless of any other right the Buyer may have to that information or facilities.

19.03 Records Retention The Supplier will keep all relevant documents, data and other written information for at least 2 years following: (a) in the case of the Goods, the later of the last delivery of the Goods or the date of the final payment to the Supplier under the Purchase Order; and (b) in the case of **Tooling**, the later of the date of completion of the Production Part Approval Process (PPAP), the date of submission of the Part Submission Warrant (PSW), or the date of final payment. The Buyer may make copies of these materials.

SECTION 20. PRODUCTION END OF LIFE – SERVICE REQUIREMENTS.

20.01 Discontinuance of Supply If requested by the Buyer, the Buyer and the Supplier will negotiate, in good faith, for the supply of the Service Parts beyond the series production of the parts. The Supplier shall either:

(a) Continue production from the Supplier with delivery in small batch quantities

(b) Provide an all time buy of predicted service quantities

(c) Supply an alternative product that is agreed on by all parties.

(d) Support the Buyer in resourcing to another party.

20.02 Supply Continuity The supplier shall work with the buyer in good faith to agree on a solution at least 6 months prior to end of production and commit to support the Buyer to achieve one of the solutions in section 20.01. Whilst the solution is being agreed upon the Supplier will continue to supply **Service Requirements** for a period of up to 6 months after the end of series production.

SECTION 21. TOOLING AND OTHER PROPERTY OF THE BUYER

21.01 General Application This Section 21 governs Tooling, Returnable Containers and Other Property owned by the Buyer (defined for the purposes of this Section 21 to include its Related Companies (which, for the purposes of this Section 21, shall include the Buyer's nominated Service Parts agents, representatives and service providers)). The term **Tooling** means all prototype and production tools, dies, fixtures, jigs, gauges, molds, patterns and related software purchased by the Buyer under Production Tool Orders (defined for the purposes of this Section 21 to include Prototype Tool Orders). Tooling includes all accessions, appurtenances, modifications, repairs, refurbishments, and replacements to the Tooling and any related drawings. **Returnable Containers** consist of returnable racks, bins, and other containers that are owned by the Buyer. **Other Bailed Property** consists of equipment, materials or other items owned by the Buyer that are placed in the possession or control of the Supplier for its use in connection with the Goods. The provisions in this Section 21 that apply to Tooling will apply equally to Returnable Containers and Other Bailed Property. It is the Buyer's standard policy to pay for Tooling as a lump sum and not to amortise the cost of such Tooling into the piece price

for the Goods, unless expressly agreed otherwise in writing.

21.02 Tool Order If the Buyer issues a Production or Prototype Tool Order in connection with the Production or Prototype Purchase Order, the Supplier will design and fabricate, rework, or acquire, and in all cases install Tooling that fully conforms to the specifications and other requirements of the Tool Order. The Tooling may not contain or be marked in any manner with the name of any person or entity other than the Buyer or the Buyer's end Customer.

21.03 Tooling Capacity The Tooling must be capable of producing the Volume Projections for the Goods during the life of the part as well as satisfying the requirements for Service Parts.

21.04 Completion and Payment The Supplier, at its own expense, will manufacture the requisite number of sample Goods using the Tooling in order to successfully complete the Buyer's Production Part Approval Process (PPAP) and submit the Part Submission Warrant (PSW). The Tooling will be completed when the necessary samples have been submitted and approved by the Buyer. The Supplier has no claim for payment and may not issue an invoice in respect of such payment until: (a) the Tooling is completed; and (b) the Part Submission Warrant, (c) Schedule of Tooling, (d) a colour photograph of the finished Tooling, (e) proof of Buyer marking unless otherwise agreed in writing.

21.05 Other Information The Supplier may also be asked to provide (a) a supply chain map, (b) a manufacturing process map, (c) a capital equipment map (describing the capital equipment required to make the Goods), (d) a sustainability road map and any other necessary documentation.

21.06 Schedule of Tooling Following the completion of the Tooling (and when requested by the Buyer from time to time) the Supplier shall submit a **Schedule of Tooling** to the Buyer which shall either be in the Buyer's then current standard format or shall, as a minimum, contain: (a) the technical specification of the Tooling, including the dimensions of the Tooling and the material specification of the Tooling; (b) the design specification of the Tooling, including all drawings of the Tooling; (c) the part numbers manufactured using such Tooling; (d) the applicable Production Tool Order(s); and (e) the location of each item of Tooling.

21.07 Status Reports The Buyer, at any time, may ask the Supplier to provide status reports on the construction or acquisition of the Tooling. Each status report will identify the Tooling, identify any subcontractors working on the Tooling, state the percentage of completion of the Tooling, and state the percentage of sunk costs already expended.

21.08 Notice of Potential Delay in Completion If, at any time, the Supplier believes that the Tooling might not be completed by the completion date specified on the Production Tool Order, the Supplier will notify the Buyer by Written Notice as soon as practicable. Sending this notice will not relieve the Supplier of either its obligation to complete the Tooling on the completion date or its liability for any additional costs incurred by the Supplier or the Buyer as a result of any delay, unless the Buyer agrees otherwise in a Written Notice.

21.09 Supplier Warranty The Supplier warranty for Tooling is the same as for the Goods under Section 9.11.

21.10 Possession and Control Tooling is in the possession or control of the Supplier as a bailment from the Buyer. The Supplier acknowledges that it is a bailee-at-will of the Tooling.

(a) **Toolmakers** If all or part of the fabrication, modification, repair or refurbishment of the Tooling will be subcontracted to a third-party toolmaker, the Supplier will: (a) inform the Buyer in advance in a Written Notice of the identity of the toolmaker and the location of the Tooling; (b) inform the toolmaker in writing that it is a bailee-at-will, through the Supplier, of Tooling owned by the Buyer; and (c) be solely responsible for payments to the toolmaker.

(b) **Subcontractors** If the Supplier intends to subcontract all or part of the manufacture of the Goods to a third-party subcontractor and to locate Tooling on the subcontractor's premises, the Supplier will: (a) inform the Buyer in advance in a Written Notice of the identity of the subcontractor and the location of the Tooling; (b) obtain the written permission of the Buyer in advance of the Supplier's doing so; (c) inform the subcontractor in writing that it is a bailee-at-will, through the Supplier, of Tooling owned by the Buyer; and (d) be solely responsible for payments to the subcontractor.

21.11 No Rights or Liens The Supplier has no property or other rights in the Tooling. The Supplier may not duplicate the Tooling without the prior written consent of the Buyer. The Supplier has no power to transfer any rights or grant a security interest in the Tooling to a third party. The Supplier waives: (a) any lien that it might have or otherwise be able to assert against the Tooling for work done on the Tooling

or otherwise, and (b) any objection to the Buyer's repossession and removal of the Tooling for any or no reason, including bankruptcy or insolvency proceedings.

21.12 Presumption of Buyer Ownership In any dispute involving ownership of the Tooling, there is a rebuttable presumption that the Buyer or the Buyer's Customer is the sole owner of the Tooling and all Intellectual Property Rights contained therein. If requested by the Buyer, the Supplier will assign to the Buyer any present or future claim the Supplier may have against any third party (including toolmakers) concerning the Tooling.

21.13 Tool Order Purchase Price Unless a Production Tool Order is expressly stated on the face of it to be issued on a fixed-price basis, the price of the Tooling will not exceed the lower of: (a) the maximum amount reimbursable specified on the Production Tool Order; (b) the Supplier's actual costs of acquiring the Tooling from a toolmaker without Supplier's mark-up; or (c) the Supplier's actual costs of fabrication of the Tooling.

21.14 Payments for Tooling Held in Trust Payments made by the Buyer for the Tooling are expressly intended by the Buyer to be held in express trust for the benefit of any toolmaker used by the Supplier to produce the Tooling. The Supplier will hold these payments as trustee in express trust for the toolmaker. The Supplier acknowledges that the toolmaker is an intended third-party beneficiary of the terms of this Section 20.13 and that it has the right to enforce these terms directly against the Supplier. The Buyer has no obligation to the Supplier or toolmaker under this Section 20.13 other than payment to the Supplier under the Production Tool Order.

21.15 Restrictions on the Use of Tooling The Supplier has the obligation to use the Tooling solely in the production of the Goods. The Supplier will not use the Tooling for any purpose other than as provided under the Global Terms and Conditions, including the production, manufacture, sale or design of after-market parts, unless specifically authorised in a Written Notice by the Buyer or as may be required to comply with a Government Requirement.

21.16 Supplier Obligations The Supplier will at its expense:

(a) Maintain the Tooling, including its repair or replacement, in the condition necessary to produce the Goods in accordance with the terms of the Production Purchase Order and be responsible for all wear and tear, excluding normal wear and tear for Returnable Containers and Other Bailed Property. The Supplier shall ensure that it follows the Buyer's then current process for approval of engineering changes in relation to any repaired or replacement Tooling, including having such Tooling re-validated via the Buyer's PPAP/PSW process;

(b) Properly house the Tooling, Returnable Containers and Other Bailed Property and insure them against loss or damage, even if it occurs despite Supplier's exercise of due care;

(c) Prominently mark the Tooling as the property of the Buyer and with the part number; and

(d) Refrain from commingling the Tooling, Returnable Containers, and Other Bailed Property with property owned by the Supplier or a third party.

21.17 Relocation of Tooling The Supplier must obtain the Buyer's prior consent in a Written Notice before moving the Tooling to another location of the Supplier or a third party. Prior consent will not, however, be required in the following situations: (a) the Supplier, its toolmakers and subcontractors may relocate the Tooling in an emergency, and the Supplier will promptly notify the Buyer in a Written Notice of the new location, and (b) the Supplier, its toolmakers and subcontractors may also relocate the Tooling without prior notice for not more than 2 business days for the sole purpose of cleaning and performing routine maintenance unless the Buyer has previously notified the Supplier it may not do so.

21.18 Return of Tooling If the Buyer requests, the Supplier will return the Tooling, Returnable Containers, or Other Bailed Property to the Buyer at the Supplier's plant or other location specified by the Buyer. The Supplier is responsible for labour and other costs of dismantling, dismantling, and staging the Tooling for removal. The Supplier will cooperate with the Buyer in removing the Tooling from the location of the Supplier or subcontractor.

21.19 Disposal of Tooling The Supplier may send a Written Notice requesting the Buyer to either accept the return of the Tooling or permit its disposal in accordance with terms to be negotiated in good faith. Under no circumstances shall the Supplier dispose of any Tooling without the Buyer's prior consent in writing (such consent shall not be unreasonably withheld).

21.20 Technical Information Relating to Tooling In the event the Supplier fails to comply with any of the requirements of the Purchase Order, and the Buyer determines that it is necessary to either take possession of the Tooling or have it relocated, the Supplier will provide the Buyer or its Related Companies with any Technical Information for the Tooling requested by the Buyer or any of its Related
